

Historical Data

Provide data regarding each Controlled Grade authorized strengths in relation to AF Reserves and Air Force.

BACKGROUND

NGB/DANG is interested in eliminating E-8s and O-4s from Title 10 USC 12011 and 12012 as a constrained controlled grade in the tables. The intent of this is to allow for each state to meet current and emerging mission requirements that has been communicated to NGB as a problem of not getting enough controlled grades to meet mission demands. The data below will show how we stack up against AF Reserves and Air Force and provide execution data for the past 4 years.

DATA.

Officer Populations compared AF Reserves and Air Force

Grades Compared	AF National Guard	AF Reserves	Air Force
COLONEL	14%	25%	1.8%
LT COLONEL	45%	43%	4.6%
MAJOR	46%	42%	14%
OFFICER POPULATION	3604	228	62918

	AF National Guard	AF Reserves	Air Force
CMSgt	4.5%	2%	1.0%
SMSgt	11%	3%	2.0%
ENLISTED POPULATION	19526	2964	26182
